How to fill out & sign your rental agreement on an iPhone

No printing, no scanning · the whole thing takes about two minutes right on your phone.

1 Get the free Adobe Acrobat app

Open the App Store, search "Adobe Acrobat Reader", and install it (it's free). You do NOT need an account · if it asks you to sign in, tap the X or "Maybe later". The app matters: the iPhone's built-in PDF preview can't fill in forms.

2 Download the agreement

Go to hot-and-steamy-sauna-rentals.web.app, scroll to "Download. Sign. Send it back.", and tap "Download the Agreement (PDF)". (If we sent you the PDF directly by text or email, just save it to your phone and skip to Step 3.)

3 Open it in Acrobat · not the preview

When the PDF opens as a plain preview, tap the Share icon (the square with the arrow pointing up) and choose "Open in Acrobat". If Acrobat isn't listed, open the Acrobat app instead, tap Files at the bottom, and open the agreement from Downloads.

4 Tap the blanks and type

Every blank line is a real form field, shaded light blue. Tap one and type. Use the small up/down arrows above the keyboard to jump to the next blank. Tap the Y or N box to check it.

5 Sign it · just type your name

On the last page, tap the Renter Signature line and type your full name. On this agreement, your typed name is your signature · no special signing tool needed.

6 Send it back to us

Tap the Share icon, choose "Share a copy", then Mail, and send it to hotandsteamysaunas@gmail.com. Please send it before your rental date so everything is ready when the sauna arrives.

Stuck? If a blank won't let you type, you're probably still in the preview · close it and open the file inside the Acrobat app (Step 3). Still stuck? Email us at hotandsteamysaunas@gmail.com and we'll help.
